

Manorfield Detectives.

Well, how about that for a view. What can you see in this picture that is still familiar today?

This photograph dates to 1915, during the First World War.

This quarry is now filled in, it's Carey Hill quarry.

Can you spot people on the left of the photo? How do you think they got the granite out of the quarry to send it around the country?

Can you see evidence for how the granite was transported?

Carey Hill quarry closed for good in around 1932 when it was allowed to fill with water. It has since been filled in altogether.
