

Manorfield Detectives.

Wow, what a view. Where is this?

What do you recognise? How many buildings are still there today?

Can you see the railway tracks? Where do you think they came from and went to? Why would there have been a railway in the centre of Stoney Stanton? There would have been a third quarry in this picture at one time; can you guess where it might have been? Little Pit as it was known, was filled in between 1909 and 1911 so we know this photograph was taken after 1911, but nobody seems to know when or why it was taken. What do you notice that is no longer there?

So many questions, can you find answers to them all?
